Important

Home Automation:

Post installation, Keus will handle the integration of the VDP into the Keus automation system.

Sale and Installation:

The selected devices must be mandatorily purchased from Keus to ensure full firmware compatibility with our home automation protocols. All installations will be carried out by Keus-trained professionals, and warranty support will be provided in accordance with standard BAS-IP processes.

Delivery :

Material will be ready for dispatch within 4-6 weeks from the date of confirmed order and receipt of 100% advance payment.

**Please be aware**

Installation charges are additional to ensure each project receives a technically reliable and sustainable solution.

All necessary network infrastructure, including LAN cables, electrical power points, and UPS backup, must be arranged and provided by the client

On Site Support Requirements, for Installation, will be communicated separately (Example - Availability of Other Vendors/Client Team, Ladders, Scaffoldings, etc)
